Seller HILLTOP RANCH

Description

[Click Here to View Pedigree](#)

HILLTOP MISS POLLED MAGGIE 21 is a former show heifer that was exhibited by a junior member. She is a super gentle scurred heifer that will soon be ready to breed.

The dam to Maggie is SRS Miss Polled Jazmine 460/8 who is sired by +Mr. V8 458/7 "Noble" and out of a cow that results from some embryos that SRS Land & Cattle purchased from V8 Ranch that are sired by their most influential polled bloodlines to include Mr. V8 51/6 and Miss V8 420/6 who they showed and retained two daughters. It is worth noting that a maternal half-sister to Maggie was sold in the 2023 B.R. Cutrer, Inc. Customer Appreciation Sale for \$10,000 validating the quality in this cow family.

The sire to Maggie is Mr. V8 20/8 was the high selling bull in the 2018 V8 Ranch Bull Sale. He is a scurred bull that offers as much growth, bone, and performance as any polled/scurred bull in the breed today. It should also be noted that 20/8 passed his breeding soundness exam at 16 months of age only adding more value to him as a sire who should produce earlier maturing and more fertile offspring. 20/8 is sired by the 2017 International Champion Mr. V8 604/7

“Man of Steel” who is a cross of the Reserve International Champion +Mr. V8 191/7 and out of a daughter of the breed icon +Mr. V8 380/6. The bottom side of 20/8’s pedigree is equally as impressive being out of +Miss V8 797/7 who is one of the most proven polled/scurred cows in the breed and the matriarch for B.R. Cutrer, Inc. Heifer is located in Alvin, TX.
